MOBILE POWER BANK

MPB42

The Mobile Power Bank MPB42 provides powerful, on-demand energy for industrial projects, live events and off-grid operations. Designed for mobility and long-term performance, it delivers consistent, self-contained power wherever fixed supplies are unavailable or impractical.

POWERFUL • MOBILE • EFFICIENT

BUILT FOR DEMANDING WORKSITES

Power on demand
For dynamic environments

CORE SPECIFICATIONS

42 kWh BATTERY CAPACITY	LiFePO4 CELL TYPE	220 / 380 V AC / DC CHARGE	4 OUTPUT SOCKETS	IP54 DUST & WATER	480 kg WEIGHT

DESIGNED AROUND DEPLOYMENT

01 **MOBILE PLATFORM**

Wheeled base supports positioning and movement on site.

02 **RUGGED HOUSING**

Metal-plate enclosure is rated to IP54.

03 **FLEXIBLE OUTPUT**

One 63A and three 16A industrial sockets.

04 **MANAGED COOLING**

Self-regulating air cooling supports reliable operation.

BUILT FOR THE APPLICATION

INDUSTRIAL PROJECTS

LIVE EVENTS

OFF-GRID OPERATIONS
