POWER MOTION

# PC9X

## PLASTCOAT SPRAYPACK

The Power Motion PlastCoat PC9X is a robust spraying unit built for indoor and outdoor applications. Designed for textured plasters and coatings with grain sizes up to 5 mm, it handles filler compounds, bonded thermal insulation systems and highly viscous materials with ease. Ideal for renovation and new construction, it delivers consistent, professional results.

ROBUST • HIGH-FLOW • VERSATILE

BUILT FOR TEXTURED MATERIALS

# High-flow performance Indoor-to-outdoor versatility

## CORE SPECIFICATIONS

| 5 mm | 30 L/min | 50 bar | 4 kW | 220 V | 30 m |
|---|---|---|---|---|---|
| MAX. GRAIN SIZE | MAX. FLOW RATE | OPERATING PRESSURE | MOTOR OUTPUT | VOLTAGE | SPRAY HEIGHT |

## DESIGNED AROUND THE WORKSITE

**01 COMPACT HANDLE**
Makes steering and positioning the unit easier.

**02 50 L HOPPER**
Reduces refilling on large jobs and is easy to clean.

**03 STURDY TYRES**
Supports easy manoeuvring across active worksites.

**04 PRESSURE GAUGE**
Allows quick monitoring of the spray pressure.
